

The Network for Advancing and Evaluating the Societal Impact of Science, a young, international network, managed by ScienceWorks. We bring together stakeholders in academia, government, industry and society to exchange best-practices for measuring, evaluating and stimulating societal impact. To help us further develop this network and its activities, as well as to conduct the research for the “valorisatie-ranking”, we are looking for a committed:

Intern “Measuring Impact of Science”

In this position you will be (jointly) responsible for:

- The organisation of an international **Webinar** and **Training course** in Vienna for science policy makers and science funders, as well as the international **Conference** on “Optimising Impact of Social Sciences and Humanities” in Cardiff;
- Conducting the research for the “**Valorisatie-ranking**” to be published in Elsevier;
- **Maintaining the day-to-day activities** for the AESIS network, i.e. updating the website, writing articles for newsletters/tweets and other tasks;
- Help **extending the AESIS network membership** by initiating partnerships and developing new activities.

We offer:

- The possibility to (help) develop and organise international activities for a young network around the theme of societal impact of science;
- Contact with international key experts and stakeholders on science funding, science policy and research management and the possibility to take a visible network position for yourself;
- A position with much responsibility in a small, informal and dynamic organisation with many learning opportunities;
- A working place in our offices in The Hague and an appropriate internship compensation.

We are looking for someone who:

- Is motivated, and likes to engage challenges;
- Enjoys organising and networking, and has demonstrable organisational experience;
- Has excellent command of the English and Dutch language, both verbally and in writing;
- Has a talent to communicate clearly and effectively;
- Is flexible and has no problem to work in an international and commercial environment.

Further Characteristics of the position:

- Availability for at least five months, starting in July/beginning of August 2017;
- Internship in the Master phase of an academic education or as work experience after finalising an academic education.

If you are interested please send your CV and motivational letter to Eline Kemperman, via e.kemperman@aesinet.com. More information available at 070- 346 2505. The vacancy will close once the most appropriate candidate found.
